Extreme Winds | Dust Storms

http://www.severeweathervideo.com/McPartland_Dust-Storms_High-Winds.mov

Tornado Alley offers up more than just tornadoes. Gustnadoes (which are spin-ups along the leading edge of a thunderstorms gust front), hurricane force outflow winds tearing up towns, zero visibility driving conditions & dust storms are also common occurrences. This screener features my best video of those events.

NY State/New England & NYC Blizzards | Winter Storms (Best Of 2003-2016)

Historic Blizzard Of 2016 – January 23rd, 2016 (4K Cinematic) *NEW*

http://www.severeweathervideo.com/McPartland_Blizzard-Of-2016_Screener.mov

This historic storm battered all of New Jersey, as well as the entire NYC Metro and Long Island. Many recording stations in both states broke their all time snow fall records! Parts of Queens, NY alone received over 34 inches of snow. All times records were also broken at Newark Airport in NJ, as well as JFK and LaGuardia Airports in NYC. I documented this storm from several locations in New Jersey (Freehold, NJ – Belmar, NJ – Laurence Harbor, NJ) as well as Manhattan, NY and Queens, NY.

NYC Blizzards/Winter Storm Highlights 2003-2013 (SD/HD)

http://www.severeweathervideo.com/McPartland_Blizzards_03-13.mov

The best of the best! My most intense blizzard scenes compiled into one convenient 28 minute screener. If it's blizzard and winter storm footage you are looking for, then this is the screener for you! If you are looking for a specific NYC winter weather event, check out my screeners below.

Winter 2013-2014 Highlights (HD)

http://www.severeweathervideo.com/McPartland_Winter-Highlights-2013-2014_Screener.mov

Winter 2013-2014 is one for the record books! Many states reported their coldest temperatures in over 25 years, and many cities reported record snow falls as well! NYC was one of those cities. Widespread frigid temperatures dominated for much of the winter, and with the cold, came an endless string of winter storms. This screener highlights my best footage from seven separate winter storms that battered the NYC Metro, and Cape Cod, MA during this historic winter. **This screener is 720P**

“Blizzards Of 2015” Long Island, NY & Plymouth, MA (HD)

http://www.severeweathervideo.com/McPartland_Blizzards-Of-2015_Screener.mov

Winter 2014-2015 has been an historic one for the northeast, and especially New England! Record snows have blanketed areas centered around Boston, and this screener chronicles two of the biggest events of the season. The first being the blizzard that slammed communities from Long Island, all the way to Boston with several FEET of snow back on January 26th/27th, and the second event being the incredible Valentine's Day blizzard that took aim at Plymouth, MA with hurricane force winds and complete whiteout conditions! **This screener is 720P**

Intense Lake Effect Snow Storm (4 to 5 foot accumulations!) Watertown, NY/Adams, NY – January 10th/11th, 2015 (HD)

http://www.severeweathervideo.com/McPartland_Lake-Effect-Snow-NY_Jan2015_Screener.mov

The lake effect snow machine has been going full throttle during the winter of 2014-2015 with several record breaking events occurring in Upstate NY. The towns of Watertown, NY & Adams, NY were pummeled once again this winter with up to 5 feet of snow over the course of this two day lake effect snow event! Footage of complete whiteout conditions, people out and about in blizzard conditions, vehicles negotiating whiteout conditions and snow covered roads, and the aftermath the following day showing people digging out from under 5 feet of snow! **This Screener is 720P**

Ice Flows-Ice Jams: East River/Hudson River/NY Harbor 2015

Major Ice Flows & Ice Jams- East River, Hudson River & NY Harbor NYC February 2015 (HD)

http://www.severeweathervideo.com/McPartland_NYC-River-Ice-2015.mov

Record cold temperatures during the middle and latter part of winter 2014-2015 directly contributed to incredible ice formation along the East River and Hudson River. This screener features these amazing ice flows as they move past the Brooklyn Bridge, Manhattan Bridge, and Williamsburg Bridge. Screener also includes footage shot from a boat sailing through an ice filled Hudson River, East River, and NY Harbor.

This screener is 720P

Ice Storm Highlights- Best Of 2011-2014

Ice Storm Highlights (Best Of) New York/New Jersey 2011-2014 (HD)

http://www.severeweathervideo.com/McPartland_Ice-Storm-Highlights_Screener.mov

Ice, ice and more ice. If you're looking specifically for ice storms and ice storm aftermath scenes, this is the screener for you! **This screener is 720P**

NYC/NY State Blizzards | Winter Storms | Ice Storms (Individual Events)

Intense Blizzard w/Hurricane Force Winds & Whiteout Conditions- Cape Cod, MA March 26th, 2014 (HD)

http://www.severeweathervideo.com/McPartland-Lewison_Record-Noreaster_032614_Screener.mov

An extremely powerful late season nor'easter took shape over the Atlantic, and battered coastal communities from Cape Cod, MA to Nova Scotia with hurricane force winds, and whiteout conditions. This footage documents the height of the storm as it battered the Cape Cod townships of Hyannis, Dennis and Brewster. **This screener is 720P**

Major Winter Storms Maximus/Nika/Pax - NYC February 3rd, 5th & 13th, 2014 (HD)

http://www.severeweathervideo.com/McPartland_Maximus-Nika-Pax_Feb2014_Screener.mov

3 major winter storms in just a 10 day stretch! Winter 2013-2014 just won't let up! Various scenes of heavy snow falling, horrendous road conditions, timelapse sequences, and people out and about struggling in the elements. **This screener is 720P**

Major Winter Storm "Janus"- NYC (Manhattan/Queens) January 21st, 2014 (HD)

http://www.severeweathervideo.com/McPartland_Winter-Storm-Janus-NYC_01-21-14_Screener.mov

The third major snow storm of winter 2013/2014 slammed the NYC Metro with a foot of snow! This storm featured extremely heavy bursts of snow, with 3-4 inch an hour rates reported. I documented this storm at its height in both Manhattan, and Queens. This screener features a timelapse sequence covering the entire duration of the storm, pedestrians struggling through near white out conditions, traffic negotiating snow covered streets, and POV driving shots through heavy snow.

Winter Storm/Blizzard "Hercules"- NYC January 2nd/3rd, 2014 (HD)

http://www.severeweathervideo.com/McPartland_Winter-Storm-Hercules-NYC_Screener.mov

2014 began with big snows and record cold temperatures in the northeast. NYC experienced some of the coldest temperatures in 20 years during and after this event. This screener features a timelapse sequence covering the entire duration of the storm, and also includes POV video shot from the hood of my Nissan Xterra as I traveled down the Long Island Expressway during the height of the snow storm, documenting the extremely treacherous road conditions. Screener also includes tripoded blizzard scenes shot at the height of the storm.

Winter Storm/Ice Storm “Electra” Queens, NYC/Carlisle, PA/Bloomsbury, NJ- December 14th/15th, 2013 (HD)

http://www.severeweathervideo.com/McPartland_Dec2013_WinterStorm-IceStorm_Screener.mov

This screener features two dramatic time-lapse sequences shot in Queens, NYC and Carlisle, PA as the snow piled up in front of the camera. Followed by very dramatic footage shot in the immediate aftermath of a major ice storm that hit the town of Bloomsbury, NJ where up to an inch of ice coated the mountain sides, trees, vehicles and pretty much everything else in sight! This screener ends with various shots of the heavy snow falling during the height of the storm.

Winter Storm/Blizzard “Nemo” NYC/Suffolk County, LI- February 8th/9th, 2013 (HD)

http://www.severeweathervideo.com/McPartland_Blizzard2013-Nemo_Screener.mov

This historic blizzard crippled many parts of the northeast US under several feet of snow. Footage shot at the height of the storm in the NYC Metro, as well as the following morning where blizzard conditions were still being felt in Suffolk County, Long Island.

NYC Historic Halloween Weekend Snow Storm- October 29th, 2011 (HD)

http://www.severeweathervideo.com/McPartland_NYC_Historic_October2011_Snows.mov

This early season nor'easter broke all the records here in NYC and caused millions to lose power throughout the northeast USA. This event was the third historic and record setting event to take place in the northeast in the last three months (Hurricane Irene & unprecedented flooding from Tropical Storm Lee being the first two events). 2011 will definitely be one for the record books!
