Licensing fees available upon request

**\*\*Be patient when downloading screeners. Most will stream right in, but a few may take a minute or two to download in full\*\***

**\*A custom screener DVD is available upon request\***

Just click on any of the links below, or copy & paste the links into your browser to download the screeners. To license video, follow these steps:

For PAL requests, scroll down to page seven.

1- View the screeners by clicking on the links below, and if you're interested in anything, email me for my licensing rates @ [smcpartland@psphoto.com](mailto:smcpartland@psphoto.com)

2- Send along a detailed list including the screener file name(s), and the time code in/out points for each clip you're interested in. At that point I'll let you know what the total cost will be for licensing said video. Note, there is a 10 second minimum required.

3- I will email you my standard one page licensing agreement already filled out with your specific licensing information. Review, sign and either email or fax it back to me. Or, if you have a license agreement of your own, I will review it.

4- At this point I can post the video to my server and email you private links to the video for you to download (this is the most requested method of delivery). A master dub can also be supplied on tape if need be (HDV or Mini DV tape only).

5- Once the license agreement is squared away, I will submit an invoice which can be paid via PayPal if preferred, or via company check. A bank wire transfer is another option as well.

6- **\*Note\*** HDV Masters can be supplied on Mini DV tape, or in the following file formats: Native M2T (1440 X 1080), Quick Time H264 (1440 X 1080), DNxHD-TR 145 8-bit (1440 X 1080) or DNxHD 220 10-bit (1920 X 1080). As of October 2011 I have upgraded my gear and shoot full 1920 X 1080 HD.

SD Video can be supplied on mini DV tape, or in file formats: DV AVI/Quicktime (720 X 480)

This early season nor'easter broke all the records here in NYC and caused millions to lose power throughout the northeast USA. This event was the third historic and record setting event to take place in the northeast in the last three months (Hurricane Irene & unprecedented flooding from Tropical Storm Lee being the first two events). 2011 will definitely be one for the record books!

## **NYC Christmas Weekend Historic Blizzard (fierce winds/deep snows) - December 26<sup>th</sup>/27<sup>th</sup>, 2010 (HD)**

## **PAL Information:**

If you need Standard Definition footage delivered in PAL format, this can be done. However, for the time being I can only deliver in PAL format via a video file, not on actual tape. Below is a list of PAL formats that I can convert the original NTSC video to:

Microsoft DV AVI (PAL 25fps 720 X 576)

MPEG 2 (PAL 25fps 720 X 576)

Quick Time (PAL 25fps 720 X 576)

All licensing is non-exclusive, and rates are available upon request.
